SUMMARY

Software engineer with 3+ years building secure REST APIs and enterprise web applications in Java and .NET for clients across Japan, contracting through SoftSora. Founder of SUNDEVs, leading the engineering team that builds and sells commercial developer tools with 1,000+ copies sold. AWS Certified Solutions Architect, Associate, and Oracle Certified Associate in Java SE 8. Work spans car marketplace platforms, generative-AI sales tooling, and open source security software, with 30+ projects completed. Currently studying Software Engineering at SLIIT.

SKILLS

Languages: Java, C#, JavaScript, TypeScript

Backend & Frameworks: Spring Boot, ASP.NET, NestJS, Hibernate, Thymeleaf

Databases: MySQL, MongoDB, Redis, Oracle DB

Cloud & DevOps: AWS, Oracle Cloud, Docker, Kubernetes, Kafka, Nginx

AI & Automation: Claude AI, Gemini, n8n, Selenium

Tools & Platforms: Git, GitHub, HubSpot, Zoho CRM

EXPERIENCE

SoftSora, Software Engineer

Dec 2025 to Present

Nugegoda, Sri Lanka

- Architect and own core systems, from technical design through production delivery.
- Full stack development across React, Next.js, Node.js, Nest.js, Express.js, Spring Boot and .NET.
- Work within an Agile/Scrum process, including sprint planning and regular standups.
- Own software testing, project management, documentation, and stakeholder collaboration.
- Run DevOps on AWS and Oracle Cloud, from CI/CD to deployment and monitoring.
- Drive automation using Claude AI, Gemini, and n8n for internal tooling and client sales workflows.

SoftSora, Junior Software Engineer

Dec 2024 to Dec 2025

Colombo, Sri Lanka

- Designed and built features for a car marketplace client project using Spring Framework and .NET.
- Collaborated directly with the client on requirements gathering, documentation, and delivery.
- Managed software project timelines and customer collaboration.

SoftSora, Software Engineer Intern

Jun 2024 to Dec 2024

Colombo, Sri Lanka

- Built REST APIs with authentication and access control for merchant registration on the car marketplace project.
- Enabled system access for 1,000+ merchants.

SUNDEVs, Founder and Developer (side venture, alongside full-time SoftSora role)

Apr 2023 to Present

Sri Lanka (store.sundevs.net)

- Founded and run SUNDEVs, building and selling commercial developer tools.
- Lead a software engineering team to build our products.
- 1,000+ copies sold across commercial developer tools.

Summit Realms, Plugin Developer

Oct 2023 to Feb 2024

Remote

- Built custom server side addons and an event management system for Spigot servers.

SELECTED PROJECTS

Car Marketplace Buyer Registration Platform

2024

SoftSora, Client: a Japanese car marketplace, Osaka, Japan

- Built a self service web platform (Java, Spring Boot, React, AWS EC2, RDS/PostgreSQL, CloudFront) replacing manual Excel and email for buyer registration.
- Car matching preferences, a personal dashboard, and automated match notifications via AWS SNS/SES.
- 1,000+ buyers registered and onboarded on the platform.

Car Marketplace Vehicle Data Platform

2024

SoftSora, Client: a Japanese car marketplace

- Re-architected a static vehicle data set into a dynamic model on AWS S3 and CloudFront with an EC2 microservice.
- Cut data publishing time from 1 to 2 days down to a few hours, with sub 1ms reads after initial load.

OPPProtector (Open Source) (github.com/ka0un/OPPProtector)

2023 to Present

- Real time security plugin monitoring Minecraft operator accounts for compromise and unauthorized access.
- 19,000+ servers protected and counting; 75+ GitHub stars; zero false positives via intelligent detection.

AI Powered Sales Proposal Engine

2026

SoftSora, Client: a marketing agency, Japan

- Built an engine that reads client records plus dozens of public signals to generate context aware, market tuned sales proposals.
- Reduced hour long manual prospect research to seconds, with consistent proposal quality.

CRM Unification and AI Enrichment

2026

SoftSora, Client: a B2B marketing agency, Japan

- Merged three disconnected contact sources into one CRM and normalized 79 job title variations.
- 3,000+ genuine decision makers identified from about 6,700 contacts; about 6,000 records enriched at scale.

COMMERCIAL PRODUCTS, SUNDEVS

SunLicense , license key management with a Java API, Discord bot, and docs	store.sundevs.net/l/sunlicense
SunGuard , wraps ProGuard and yGuard to obfuscate Java code	store.sundevs.net/l/sunguard
SunPaste , self hosted paste sharing with a REST API and admin panel	store.sundevs.net/l/sunpaste
SunLinks , self hostable URL shortener with click tracking and analytics	store.sundevs.net/l/sunlinks

EDUCATION

SLIIT, BSc (Hons) Information Technology, Software Engineering	Aug 2023 to Jul 2027
SLIIT, Higher Diploma in Information Technology	Aug 2023 to Jul 2025
Nalanda College, Colombo	2020 to 2023
Carey College, Colombo 08	2009 to 2020

CERTIFICATIONS

AWS Certified Solutions Architect, Associate, Amazon Web Services (verify)
Oracle Certified Associate, Java SE 8, Oracle (verify)
OCI Certified Foundations Associate, Oracle (verify)
OCI Certified AI Foundations Associate, Oracle (verify)

AWARDS

SLIIT Dean's List Award, Year 1 Semester 2
SLIIT Dean's List Award, Year 2 Semester 2
